## THE LIST OF SOCIETY

The List of Society is a national social volume and includes a select group of recommended representative men and women in various parts of the country, who, in the opinion of their sponsors, maintain a dignified standing in their community, and who have contributed, in some measure, to contemporary constructive thought, welfare, creativity and achievement in their community.

The List of Society is published annually for the convenience of those who wish to keep in touch with friends living in different parts of the country and abroad. It is available only to those who are listed in it and is not for sale to the public.

In addition to home addresses, telephone numbers, clubs, and business, it also includes, in the case of married couples, the names of their children and the wife's maiden name. It gives the changes of address and status of those who may be serving in the Military, Diplomatic or Foreign Service and also lists the addresses of those who may be temporarily residing away from home or who may be away at college.

The subscription charge is \$10.00 per annum.

Those already listed may sponsor individuals whose qualifications are well known to them. The Committee, however, reserves the right of final approval.

To find someone whose married name you do not know or cannot recall, it is suggested that you refer to the list of maiden and married names in the back of the book.

For Official Washington Listings see page 394.
